

**Max. Flow Rate**

# Industrial Peristaltic Pump

## G300-1E, G300-1J

Speed	0rpm-300rpm, CW/CCW.
Speed resolution	1rpm
Display	LCD
Control mode	Keypad control, external signal control and communication control are available.
External control	Start/stop control, direction control: voltage level signal or switch signal are optional. Speed control: 0-5V, 0-10V, 4-20mA, 0-10kHz are optional with uniform interface, max speed can be set between 30rpm and 300rpm.
Communication control	RS485 interface, Longer protocol or Modbus protocol, the communication parameters (address, baud rate, parity, stop bit) can be set through keypad.
Parameter memory	Operating parameters will be saved automatically
Pump status when powered up	The pump status when powered up could be set as stop or as the status before power loss.
Prime	Fast filling or emptying at full speed
EMC	Comply with EMC Directive 2014/30/EU
Keypad lock function	Keypad can be locked to prevent the misoperation. The delay time before lock is settable.
Dimension(L×W×H)	235×142×152(mm)
Power supply	G300-1E: AC100V ~ 240V/50W, 50 ~ 60Hz G300-1J: AC100V ~ 240V/60W, 50 ~ 60Hz
Operating temperature	0 to 40°C
Relative humidity	10%-90%
IP rating	IP65
Weight	3.64kg

Compact structure, small size.

Using aluminium alloy housing with anti-corrosion paint treatment, the pump has good corrosive resistance and longer life time in corrosive environments.

With good electromagnetic compatibility, the pump will not behave unacceptably in an EMI environment and will not interfere with other electronic equipment.

With high IP rating, the pump could be used in wet and dusty environments.

Using high quality electronic components, optimized software design and circuit design, the pump provides long-term reliable and stable operation.

LCD with specially designed run screen displays parameters and running status, which provides enough information for correct operation.
